Brian did you receive the email below? Any thoughts?

Also, following up on our discussion recently, attached is a proposal to reduce the number of permits EPA is obligated to review. I marked up the template that you reviewed and agreed with back in February 2018. The big one is eliminating the need to review permit renewals where WLAs from a TMDL are being applied. We see many of these and nearly 100% of the time your staff have no comments.

I also have a question on something else and left you a message...

Thanks – Sean
